UF-Texco Solder Connectors

WPT-TwenTec Automotive Bv supplies 3 types of solder connectors :

- The standard UF-Texco solder connectors with a single solder ring and a sealing ring on each side of the heat-shrinkable tubing.
- The UF-Texco Duoflux solder connectors with a dual solder ring and a sealing ring on each side of the heat-shrinkable tubing.
- The UF-Texco Twinflux solder connectors, similar to the Duoflux solder connectors, but with a RoHS – certificate.

Solder connectors are ideal for making electrical connections, which require high quality, reliability and water tightness. Installation of car audio equipment and alarm systems are typical application examples.

Four sizes are available for cables up to 6 mm², as listed below

Duoflux

Twinflux

P/N	Description
012069	Bag of 50 Connectors, Clear
012070	Bag of 50 Connectors, Red
012071	Bag of 50 Connectors, Blue
012072	Bag of 50 Connectors, Yellow
012090	Bag of 50 Duoflux Connectors, Red
012091	Bag of 50 Duoflux Connectors, Blue
512090	Bag of 50 Twinflux Connectors, Red
512091	Bag of 50 Twinflux Connectors, Blue

Color Codes:

Clear	0,3–0,5 mm ²
Red	0,5–1,0 mm ²
Blue	1,0–2,5 mm ²
Yellow	2,5–6,0 mm ²
